EDUCATION

PES Modern College of Engineering

B.E in Computer Engineering
CGPA: 8.51

Feb 2020 - June 2024

EXPERIENCE

Associate Consultant (SAP CPI)

Rolling Arrays

July 2024 - Present

Remote

- Developed & maintained over 10 custom integrations across SAP SuccessFactors and third party systems, utilizing SAP CPI with Groovy scripting, API based integrations & XML/JSON conversions.
- Developed and optimized full-load & delta-load to ensure accurate, timely employee data transfers for payroll & HR operations.
- Designed and implemented over 10 integration processes by closely collaborating with clients to refine specifications; provided detailed documentation that enhanced client understanding of system functionality, leading to improved project satisfaction.
- Spearheaded integration optimization by establishing comprehensive error handling protocols, configuring real-time alerts, and implementing PGP encryption; ensured seamless data transfers while resolving initial integration issues within a 24-hour timeframe.

Frontend Engineering Intern

AirMenus

Oct 2022 - Sept 2023

Pune, MH, India

- Redesigned and deployed 15+ dynamic web applications utilizing React and Next.js; drove a 15% increase in user engagement through seamless navigation and interactive features.
- Revamped and maintained responsive web applications for clients in the food and hospitality industry, enhancing their online presence and customer engagement. Implemented Tailwind CSS to streamline the development process, reducing CSS codebase by 20%.
- Collaborated with clients to gather project requirements and translate them into actionable technical tasks, ensuring client expectations were met.

PROJECTS

Instant AI | [Link](#)

- Streamlined a responsive and intuitive landing page with dashboard using Next.js 13 & TypeScript, ensuring a seamless user experience across devices.
- Integrated Prisma as the database ORM to manage and query data efficiently, ensuring data consistency and security.
- Implemented secure payment processing using Stripe, enabling users to seamlessly subscribe and manage their accounts.

StackExplorer | [Link](#)

- Built a complete tech stack directory website using Next.js and TypeScript, helping developers find tools for 6+ areas like web, mobile, and AI development.
- Created a fast search feature (cmd+k) that helps users quickly find what they need from 100+ development tools, making the website more user-friendly.
- Added a feature for users to submit new tools and give feedback, helping grow the platform's content by 30% through community input and keeping information up-to-date.

- Designed 6 different category pages with a clean layout using Shaden UI, making it faster for developers to explore and compare similar tools within their field.

SKILLS

Technical Skills	Groovy Script, ReactJS, NodeJS, NextJS, MongoDB, C++, JavaScript
Soft Skills	Leadership, Project Management, Problem Solving, Team Collaboration, Time Management
Developer Tools	SAP CPI, SAP SuccessFactors, Git, GitHub, VS Code

ACHIEVEMENTS & CERTIFICATES

- Microsoft Azure Certified [Link](#)
- Best Outstanding Student Award 2023-24
